SYNACT Accelerate for Non-Profits

Build & Maintain Your Relationships

The non-profit tech space is changing and evolving every day, but the key principle remains the same: modern nonprofits deserve fully-integrated tech stacks with tools that can connect and collaborate.

Microsoft Dynamics 365 provides a platform to help your non-profit achieve your mission by fulfilling strategic goals. Offering a complete view of key relationships with donors, sponsors, and volunteers PLUS campaign and event management, Dynamics 365 results in operational enhancements, cost savings, and real-time intelligence for easy decision-making.

Quick Start: Accelerate for Non-Profits

The Accelerate offering packages the most essential and effective configurations common to most non-profits. Additionally, as your partner, we provide unlimited training and support to ensure you're making the most of your system. This quick-start program supports up to five licenses of D365. If your organization requires more than 5 users, talk to us about our other programs.

Customizations
Configure fields, forms & workflows to make the application your own

Ongoing Support
Step-by-step guides, plus unlimited end user support from a real person

User Adoption
Materials and resources tailored to your non-profit & adult learning

Why SYNACT?

The CRM marketplace offers a seemingly infinite supply of software, vendors, and consultants, all promising to make your dreams come true. The status quo remains a tempting option. Due diligence is imperative when the stakes are high; identifying the right software implemented and supported by the best partner, will be critical to your long-term success. Feel confident that partnering with SYNACT to implement Microsoft Dynamics 365 is crucial to executing on your non-profits mission.
