

# SYNACT Accelerate for Sales

## Give Your Sales Team the Winning Edge

Small and growing organizations need enterprise level support to make the most out of CRM, but often can't afford the price tag.

Our program is based on Microsoft Dynamics 365 Sales Professional, a platform built to combine the revenue-generating capabilities of sales force automation with the productivity genius of Office 365 and individualized support from SYNACT.

### Quick Start: Accelerate for Sales

All organizations, no matter how small, want CRM to align with their sales process. D365 is highly customizable, so we include several opportunities to make the application your own. More importantly, SYNACT Accelerate for Sales packages the most essential and effective configurations of D365, learned over decades of implementing CRM, across industries. Accelerate for Sales supports up to five licenses of D365 Sales Pro. If your organization requires more than 5 users, talk to us about our other programs.

#### Customizations

Configure fields, forms & workflows to make the application your own

#### Ongoing Support

Step-by-step guides, plus unlimited end user support from a real person

#### User Adoption

Materials and resources tailored to your business & adult learning

### Why SYNACT?

The CRM marketplace offers a seemingly infinite supply of software, vendors and consultants, all promising to make your dreams come true. The status quo remains a tempting option. Due diligence is imperative when the stakes are high; identifying the right software implemented and supported by the best partner, will be critical to your long-term success. Feel confident that partnering with SYNACT to implement Microsoft Dynamics 365 is crucial to executing on your business and customer relationship management strategy.
